WASHINGTON LETTER,

(From our regular correspondent.)

WASHINGTON, August, 29, 1885 home. The secretary of the treasretaries Fairchild and Coon. The eral Stevenson has charge of the P. their nespective chief clerks while Lamar of the interior department the only members of the cabinet who

terrors for them. The hotel keepers of the summer resorts are much given to advertising the fact that cabinet ministers and prominent officials of all sorts are stopping at their- health-giving inns, where the scenery is grand and the thermometer at 75 degrees. Attorney General Garland has been much annoyed at advertising of this sort, and when it was announced last week that he was at Rock Enon Springs, which they receive as regards ma- ble itself, is to imagine its tendencies. he got mad and gave notice that he had not been away and did not intend to go. He tramps down to his

daily exercise in the saddle.

There three members of congress who have houses in Washington and at present are residing here and Breckenridge, member from Arkansas whose home is in Pine Bluff, has a house upon the Capital Hill, and with his family has been there all the summer and intends to remain. Hon, John S. Barbour, of Virginia lives in Washington also, although his legal residence is Alexandria. Mr. Barbour also resides on Capitol Hill. Mr. Benjamin Butterworth, who, while commissioner of patents, took a house out at Le Droit Park, has had his family there ever since, and has paid little attention to his nome in Cincinnati.

Mr. M. W. King, the new chief of he seed division at the agricultural department, seems to be taking hold of his work with real vigor. Mr. King was well known by commissioner Coleman before the appointment was made, and it is said he is peculiarly well posted on the various soils of the country and the seeds that will thrive therein. The difficulty with this department in the past, and the reason it has been brought into disfavor is because see's were not indicously distributed. The department is now sending out wheat and rye. A new kind of wheat which Mr. King calls the Houghton farm variety, he expects a the best ever distributed. He is sending out a new variety of turnip seed into the south also. Four varieties of Italian wheat have recently been received at the department, which will be distributed to the experiment stations. The reported breach between the president and Mr. Tilden has fallen very fiat. Few persons took any stock in its truth and as was very likely the expectation of its author. Somebody else will probably take Mr. Tilden's place in a day or so as the "bitterly dissappointed and vindictive Democrat," and so the good work will go on until the name of every prominent

Manuring Fruit Trees.

It is strange how long some fallacies retain their hold, even after feeding of the surface roots, both them in it. -Every good citizen is supposed to be interested in the well being of

who spoke in substance as follows: I am glad to meet with you, my old friends, and shake you by the hand. Twenty years have rolled by since the last hostile gun was fired in the greatest civil war the world has ever seen. Thank God, we have at last come to a period born of gratitude and love. As in affairs of business, to be tolerant and forbearing is to be wise and prudent; we can now talk about the war about the war without malice. The soldiers, Union and confederate sit side by side and talk about that war, a war on the part of the men of the north for perpetuity of the Union, and a war on the part of the south for the establishment and perpetuity of a separate government, yet one which had almost identically the same constituers must form their own conclusions an innocent amusement when others tion. It was a war between 7,000, as to the best course to pursue. The dared call in question its propriety. 000 white people of the south and 20,000 000 white population of the north. Exclude from the south the states of Kentucky. Maryland and Missouri, and the figures would have read 2,500,000 in the south and 21,- cinity last week from flux. 000,000 in the north. hen he goes out he rides in a is cut for hay and carried away the from the time they first began, and To-day no rational man, no sane man starts in a few days for the medical lowest grade clerk in his office.
